FISCAL YEAR 2000 – concluded**

Note: The Southern Nevada Public Land Management Act (Public Law 105-263) became law in October 1998. The Act provides for the disposal of public land within a specific area in the Las Vegas Valley and creates a Special Account into which 85 percent of the revenue generated by land sales is deposited. The remaining 15 percent goes to local governments. The Special Account is not allocated as a part of the Federal Budget Process, so any revenue in the account remains available until expended.

/a/ Allowable expenditures under the Southern Nevada Public Land Management Act include the following:

- Acquisition of environmentally sensitive lands in Nevada, with priority given to lands in Clark County.
- Capital improvements at the Lake Mead National Recreation Area, Desert National Wildlife Refuge, Spring Mountain National Recreation Area, Red Rock Canyon National Conservation Area, and other areas administrated by the Bureau of Land Management in Clark County.
- Development of a multi-species habit conservation plan in Clark County.
- Development of parks, trails, and natural areas in Clark County pursuant to a cooperative agreement with a unit of local government.
- Reimbursement of costs incurred by the BLM in arranging sales under the Act.

/b/ BLM = Bureau of Land Management, BOR = Bureau of Reclamation, FS = USDA Forest Service, FWS = U.S. Fish and Wildlife Service, and NPS = National Park Service.

/c/ Actual acquisition price may differ from estimated values.

/d/ Virgin River 1 acquired by BLM on November 1, 2000.
